Department of Health Care Services Children's Medical Services Network (CMS Net) - Information Bulletin #409

November 2012 Change Cycle

The CMS Net applications will be down after 5:00 p.m. on Friday, November 16th and available starting at 6:00 a.m. on Saturday, November 17th. This update will implement changes included in the November 2012 change cycle further described below:

CMS Net Web:

Patient Therapy Records (PTR)s

The PTR batches from the Medical Therapy Program module will be created in the new file format called a 5010 transaction. All health care providers, plans and clearinghouses that electronically transmit health information must switch from version 4010A1 to version 5010 of the Health Insurance Portability and Accountability Act (HIPAA) transaction standards for greater efficiency. This change will be transparent to all users.

Medical Therapy Program

Update to allow removal of a therapist entry from Therapy Assignment Screen

CMS Net Legacy:

Patient Registration:

Update to allow special characters like space, apostrophe, period and hyphen in the last name, first name, middle name, birth name and alias fields.

Financial Worksheet

Corrected ability to add 'Known Funding for Pgrm Elig Period' entries by typing the selection instead of using pick list. Entry was not being saved previously.

Healthy Families Coverage

System correction made to display the Healthy Families plan information on the Healthy Families screen.

System Administration - Administrator menu

Track Transactions: Program error corrected when user view insurance transactions for Healthy Families, Insurance, Medi-cal Coverage and Personal Injury screens.
